

## The Crown Jewel of coverage: Comprehensive HVAC protection

When it comes to protecting their home, your clients want coverage that's Comprehensive, Flexible, and Convenient. 2-10 Home Buyers Warranty (2-10 HBW) has exactly what they're looking for.

With 2-10 HBW's incredible new product, you can **provide the industry's most comprehensive HVAC coverage**. That can give your clients solutions when their most complex and expensive system breaks down.

### What "Most Comprehensive" means

#### SEER matching comes Standard.

With 2-10 HBW, your clients can reduce surprise bills when federal standards require replacing a companion system.

#### No aggregate trade limits for Buyers' Heating or A/C.

Give your Buyers peace of mind that their HVAC system has protection for covered breakdowns.

#### Unlimited refrigerant recapture.

Available with Supreme coverage, this helps minimize the costs when your clients must convert their system to an alternative refrigerant.

#### Refrigerant recharging comes Standard.

Although federal regulations often require alternative refrigerants, 2-10 HBW continues to provide unlimited refrigerant recharges.

#### Seller coverage includes heating.

On top of being complimentary,\* Seller coverage includes protection for heating systems at no extra cost. Others may charge for it, but not 2-10 HBW!

### Why SEER matching and refrigerant services matter

**Incompatible SEER ratings can be a problem.** When heating and cooling SEER ratings aren't compatible, it can cause system failures. 2-10 HBW covers SEER matching to protect your clients from unexpected breakdown costs.

**SEER matching could be required by law.** Not all companies cover SEER matching, and more jurisdictions require it by law than ever. With 2-10 HBW, your clients can rest assured that if they need SEER matching, they won't need to pay for it out of pocket.\*\*

**Refrigerants are expensive.** Recharging refrigerants is expensive, and many other companies have per-pound limits.

### Give your clients the peace of mind of the most comprehensive HVAC coverage on the market.

2-10 HBW provides the industry's most comprehensive HVAC coverage, including unlimited refrigerants and SEER matching, at no additional cost.

As EPA regulations around refrigerants continue to evolve, 2-10 HBW will continue to provide superior HVAC coverage by encouraging the use of alternative refrigerants, the chemical that cools a home's air.

### Comprehensive, Flexible, Convenient: Coverage your clients deserve
